

## NETA's New Self-Paced Technical Seminars Tackle Partial Discharge Testing and Transformer Insulation Diagnostics

Online training courses feature industry experts and the latest trends to make professional development and continuing education easier

PORTAGE, Mich., July 29, 2019 (GLOBE NEWSWIRE) -- Two new NETA Self-Paced Technical Seminars (SPTS) make getting additional training and enrichment even easier. NETA's robust online training opportunities put you in the driver seat making them the perfect fit for any schedule.

The new seminars — "[Overall Transformer Insulation Diagnostics: Field and Laboratory Approach](#)" and "[Understanding Partial Discharge Workshop](#)" — each include:

- | PDF download of the presentation
- | Online proficiency exam
- | Four-hour run time
- | Potential for four NETA CTD Credits (NETA Certified Technicians)
- | Potential to submit for CEUs

These courses and more than 20 other training opportunities, taken directly from PowerTest – the premier electrical maintenance and safety conference, are available from NETA's online [Bookstore](#). NETA is dedicated to collecting and disseminating information and data of value to the electrical industry and to educating the public and end user about the merits of electrical acceptance and maintenance testing.

### ABOUT NETA

[NETA, the InterNational Electrical Testing Association](#), is an ANSI Accredited Standards Developing Organization that creates and maintains standards for electrical maintenance and acceptance testing for electrical power equipment and systems, as well as a standard that addresses the certification of electrical testing technicians. NETA is an association of leading electrical testing companies comprised of visionaries committed to advancing the industry standards for power system installation and maintenance to ensure the highest level of reliability and safety.
